Your Quick Start Guide to Safety and Health Management

What: A FREE webinar in support of national Safe + Sound Week.

When: August 16, 2018, 10:00 am to 11:00am CST

Who: Anyone interested in the four core elements of an effective safety and health management system and those central issues that are critical to each element's proper management. The webinar will cover effective implementation of a company's safety and health management system.

Why: Because worker safety and health makes good business sense.

Presenters

Special Welcome and Intro by OSHA's very own
Candra Jefferson,
Compliance Assistance Specialist
from OSHA North Aurora Area Office

Followed by:

Karen Basso

Mid-America OSHA Education Center

Karen is a retired Firefighter-Paramedic who began her career in 1985 and retired as a Lieutenant in 2009. Alongside her 25 plus year fire career she worked as a Registered Nurse in Intensive care and Emergency Departments. She currently works as the curriculum and program specialist for Mid-America OSHA Education Center. She is also adjunct faculty for Sinclair Community College teaching in the Fire Science and Allied Health programs.

Daryl Daniels, CSP

Great Lakes OSHA Education Center

Mr. Daniels is a Safety Professional and Industrial Hygienist with over 30 years of field work and management experience. Daryl has worked in the Aerospace Industry at the Kennedy Space Center for Lockheed Space Operations, he has worked in Chemical Manufacturing, in the Electric Generation and Transmission industry, in the Automotive industry, and in the Public Sector. Daryl is also the founder and president of CSP Safe LLC. Daryl's work experience include Auditing, Chemical Exposure Assessments, Management Systems Development, Programs and Procedures Development, and Training.

John Newquist

National Safety Education Center

John Newquist is an independent safety trainer, author and consultant. From 2005-12, John was Region V's Assistant Regional Administrator for Cooperative and State Programs, where he managed the region's training programs, Susan Harwood Grants, state plans and consultation grants, and voluntary protection programs. A Certified Safety Professional, he was a founding member of the ANSI Z359 Standards Committee (Safety Requirements for Fall Arrest Systems). He created and taught the first OSHA Training Institute fall arrest and process safety management classes. He has taught hundreds of safety seminars across the country, including the National VPPPA, Construction Safety Conference, American Society of Safety Engineers and National Fire Protection Association. He worked for OSHA from 1983-2012, including a stint as the Area Director of the Peoria Area Office.

Paul Satti

National Safety Education Center

Paul has 22 years of experience with the Chicagoland Construction Safety Council as an instructor, researcher, and consultant to safety and health management professionals. He is an author of dozens of student guides and technical manuals that reduce the incidence and severity of injuries in the workplace nationwide.
